WATER AND WASTEWATER SYSTEM DIRECTED MAINTENANCE RE-BID

BID NUMBER 02-15

ADDENDUM NUMBER 1

January 14, 2015

Attention of all bidders is directed to the following addendum to this Bid Proposal:

QUESTIONS AND ANSWERS

1) **Question:** In what manner will the contractor be given work orders?  
   **Answer:** In the form of printed maps containing valve location and ID. GPS coordinates are also available.

2) **Question:** How often will the work orders be received?  
   **Answer:** Every month.

3) **Question:** What amount or quantity of valves to exercise will be contained in each work order?  
   **Answer:** 420

4) **Question:** Is there a detailed list of valve types, sizes and quantities?  
   **Answer:** No.

5) **Question:** In regards to bid items #5 & #6 - How many valves do or do not have drain valves?  
   **Answer:** The majority of air release valves have drain valves.

6) **Question:** Will a blanket permit be issued for access to the ROW on TXDOT roads instead of individual permits?  
   **Answer:** Individual permits will be required.

7) **Question:** Does the utility have a standard manufacturer and type on the release valves as they did on the inline valves?  
   **Answer:** Manufacturers include Val-Matic, Crispin, and GA Industries. Types are combination air/vacuum and air release.

8) **Question:** Is sub-meter GPS the required accuracy of GPS coordinates collected?  
   **Answer:** Yes.

*Bidder shall acknowledge receipt of this addendum and submit this acknowledgment with their bid submittal. Failure to acknowledge addenda, may result in rejection of bid.*
