

VIDEO CASSETTES

GENERAL WATER EDUCATION VIDEOS:

- 1. Professor Water: Fantastic Facts about H₂O.** Presented by American Water Works Association. Features a very humorous professor and his assistant discussing general water facts. *Run Time - 26 minutes* **2 COPIES**
- 2. TX- The State of Water.** Presented by KCOS Ch 13. Features different cities in TX and their water usage. *Run Time- 1 hour*
- 3. Always Pure, Never Runs Dry.** Copyright 1992. Presented by American Water Works Association. Explains the general uses of water, i.e. industrial, irrigation, food processing, etc. Over 29 billions gal/day in U.S. Also talks about the hydrological cycle (surface & groundwater sources) and discusses Complex distribution system from Sierra Nevada's, the Colorado River, throughout the Los Angeles area. *Run Time - 15 minutes.*
- 4. Down The Drain - 3-2-1 CONTACT.** Copyright 1991. Presented by Children's Television Workshop. Stephanie Yu travels along the water cycle to find out how water gets dirty, how it gets clean, and what we can do to help conserve and preserve it. *Run Time - 30 minutes.* **2 COPIES**
- 5. Water Hog Haven.** Copyright 1991. Presented by American Water Works Association. No conversation video. Features "The Water Hog" who continuously abuses water, as well as people do. Focuses on depletion of water reservoirs and not having enough water in case of emergencies. *Run Time - 7 minutes* **2 COPIES**
- 6. The Adventures of Ethel Mermaid & Tad Pole - A Five-part video series.** Copyright 97. Presented by Water Works Association. Ethel and Tad, take you on their adventure of discovering the wonders of water. Fun for kids ages 7 -12.
 - Vol 1. The Hydrological Cycle.** A journey up to the clouds and back again to their underwater home in Ezra Pond. *Run Time - 10 minutes.*
 - Vol 2. From Source to Tap.** Tad and Ethel visit their friend Flo Ride, who takes them down the distribution pipeline superhighway from source to kitchen tap. *Run Time - 9 minutes.*
 - Vol 3. Water Treatment.** As strange objects enter the water treatment plant intake, Ethel and Tad find out about water treatment. *Run Time - 9 minutes.*
 - Vol 5. Fun Water Facts.** To earn money, Tad and Ethel answer people's questions about drinking water at 25 cents per question. Learn fascinating facts about water. *Run Time – 9 minutes.*
- 7. Water Conservation Class Presentation.** Presented on June 25, 1996 at Pavo Real Recreation Center. First Group consists of 6-7 year olds and Second Group 8-12 year olds. Anai J. Padilla with the help of "Willie the Water Drop" talks to a children's group about general water conservation information. The hydrological cycle is demonstrated and both indoor/outdoor conservation tips are discussed with the children. *Run Time – 50 minutes.*
- 8. Saving Water: The Conservation Video.** Presented by Water Environment Federation. Features "Dino Saurus" as the curator of the "Future Exhibit" in a museum. The exhibit is called "The Lost Treasures of the Earth" and portrays a future without water. *Run Time - 9 minutes.*
- 9. The Groundwater Video Adventure.** Presented by Water Environment Federation. Features "Dino Saurus" as the narrator of a multi-media game which tests a teenager on how she would best solve groundwater problems in the real world. *Run Time - 10 minutes.* **4 COPIES**
- 10. Preserving Our Water Resources Makes Good Sense.** Presented by Texas A&M University. Discusses general information on saving both water and money simply by conserving water. Also explains why, at times, our water rates need to be increased. *Run Time - 6 minutes.*
- 11. Water for Texas - A Utility Manager's Guide to Water Conservation.** 1993. Includes various aids needed to help a water utilities' manager get a water conservation program started. Presented by the Texas Water Development Board. Produced by Blaylock Films for Sherry Matthews Advertising. *Run Time – 22 minutes*

- ***How to Use the Water Box.** Explains how to best use the information included in this video.
- ***Water for Texas: Today & Tomorrow.** Discusses the current and future water situation in Texas.
- ***Sure I Can Conserve Water, But Why?** Explains the advantages of starting a water conservation program at your utility.
- ***Money Down the Drain.** Explains to the consumer how to start taking control of the water used in the home.
- ***Water Conservation: It's Just Good Business.** Discuss how to start water conservation program for industry.
- ***Detecting a Loser - A Program About Leak Detection.** Explains the leak detection process to utility workers.
- ***Public Service Announcements.** Television and radio public service announcements featuring "Water Advice from Walter".

12. The Alternative is Conservation. 1979. Produced for the Environmental Protection Agency by USER Inc. Refers to water-saving habits that were established during the California drought of 1977 and other conservation programs that have been implemented throughout the country. *Run Time - 20 minutes.*

13. Fix That Leak. (English). University of Texas at El Paso Production and Continental Video Inc. Discusses basics on do-it-yourself repairs for toilet leaks. Narrated by Gary Monday. *Run Time – 20 minutes*

14. Arregle Esa Gotera. (Spanish version of "Fix That Leak"). University of Texas at El Paso Production and Continental Video, Inc. Discusses basics on do-it-yourself repairs for toilet leaks. *Run Time – 20 minutes*

15. Fred Hervey Water Reclamation Plant. 1991. Video is usually used as an introduction to a tour of the Fred Hervey Water Reclamation Plant tours. The video discusses the process of reclaiming water. *Run Time – 10 minutes.*
4 COPIES

16. Water Follies (A Soak Opera). Animated production originally produced for the Denver Water Department by Stan Phillips and Associates presented in the interest of Water Conservation by Texas Department of Water Resources. This animated feature demonstrates amusing aspects of residential water conservation for children and adults. *Run Time - 6 minutes.*

17. El Paso Water Utilities. Produced by Advertising Ink. El Paso Green Sweep "Miss Honey Mesquite"- 30 second spot, "Miss Live Oak"- 30 second spot, "Miss Desert Willow" – 30 second spots English & Spanish. **3 COPIES**

18. El Paso Water Utilities. Produced by Advertising Ink. "Water Your Grass Less"- 30 sec spot. English & Spanish. **3 COPIES**

19. The Hydrologic Cycle. Water in Motion Grades 7-12. With live action video and computer graphics, understand how water moves through the hydrologic cycle. Discover how natural events affect evaporation, condensation, precipitation, runoff, and storage. With increasing demand for usable fresh water, learn why the use and misuse of this precious Earth resource is a global environmental concern. *Run Time - 20 minutes.*

20. Before The Well Runs Dry. A special program from the City of Albuquerque. Quantity of water is the main issue for Albuquerque. The aquifer is shallower than first thought and other sources are discussed. *Run Time - 28 minutes.*

21. El Paso Water Utilities. Produced by Advertising Ink 08/05/03. "The Right Grass" – 30 second spot. **3 COPIES**

22. Lean & Green, Saving Water in Thirsty Yards. Produced for the City of Albuquerque, Martin J. Chavez, and Mayor Doug Bennett, Water Conservation Coordinator explains irrigation procedures for watering landscapes more efficiently by performing an irrigation audit and emphasizes on plant signs for water stress. *Run Time - 34 minutes.* **3 COPIES**

23. Living in a Xeriscape. Produced for the City of Albuquerque, Martin J. Chavez, and Mayor. Curtis Smith and Judith Phillips explain about using native plants for landscaping, techniques for hydro zoning the landscape and using an efficient irrigation system. *Run Time - 26 minutes.* **2 COPIES**

- 24. The Bewitched Ditch.** 1984. Produced by Albuquerque Public Schools. Features an animated "Water Witch." Discussing the dangers of swimming in ditches. *Run Time – 15 minutes*
- 25. But It Couldn't Happen to Me.** Narrated by Estela Casas KDBC-TV and produced by the El Paso Community College Media Center. Video discusses the dangers of swimming in unsafe water in the El Paso area.
- 26. Landscape Water Conservation . Xeriscape.** Presented by Texas A & M University. Discuss the importance of Xeriscaping and explains in detail the seven principles of Xeriscaping. *Run Time - 11 minutes.*
- 27. A Consumer's Guide to Water Conservation.** Presented by the American Water Works Association. *Run Time-14 minutes.*
- 28. 609 Buffalo grass.** Presented by Crenshaw & Doguet Turf grass. Video discusses the advantages of installing buffalo grass. *Run Time - 14 minutes*
- 29. Xeriscape: A Quiet Revolution A Xeriscape Primer.** Xeriscape: A Quiet Revolution is produced by Denver Water and the Denver Museum of Natural History. Video discusses Xeriscaping in general. A Xeriscape Primer is produced by Denver Water, Department of Environmental Protection Agency, and KRMA-TV discusses the seven principles of Xeriscaping. *Run Time – 42 minutes*
- 30. Time, Water, Money.** 12/1/93. Presented by Hunter Industries. Video discusses how to save time, water, and money by using Professional Irrigation Management. *Run Time - 9 minutes.*
- 31. Xeriscape: Gardening for Austin.** 1994. Produced by the City of Austin, Environmental and Conservation Services Department, and Water and Wastewater Utility. Discusses the seven principles of Xeriscaping and explains how to put each one of them into practice in an easy-to-follow format. *Run Time - 31 minutes.*
Also, includes two bonus videos:
***Money Down the Drain and Water Follies** (Animated). Down the Drain discusses residential water conservation tips from the Texas Water Development Board. *Run Time - 7 minutes.*
***Water Follies** is an animated feature which demonstrates amusing aspects of residential water conservation for children and adults. *Run Time - 6 minutes.*
- 32. 9 Public Service Announcements in both English and Spanish.** 1991. Produced by Envision Productions/Denise Quintana Gelo. Includes the following spots in this order: **2 COPIES**
1. "What I'm going to do This Summer." 30 Second Spot. 6/19/91. English
 2. "How Kids Can Save Water." 30 Second Spot. 6/19/91. English
 3. "John White." 30 Second Spot. 8/6/91. English
 4. "Tiguas." 30 Second Spot. 8/6/91. English
 5. "Green Grass." 30 Second Spot. 8/6/91. English
 6. "Tiguas." 30 Second Spot. 8/6/91. Spanish
 7. "Green Grass." 30 Second Spot. 8/6/91. Spanish
 8. "Measuring." 30 Second Spot. 8/8/91. Spanish
 9. "Water Warriors." 30 Second Spot. 7/16/91. English
- 33. Cadillac Desert** PBS –KCOS -13 30 Second Spot
- 34. "Water on Request Program."** Video produced with EPWU, El Paso Restaurant Association, Guynes Printing, and KVIA-TV Channel 7. 30 Second Spot
- 35. "Willie Water Waster."** The Public Service Announcement. 6/9/90. Other World Productions of El Paso and produced by Charles Rivera. Video features a clay version of our Willie Water Waster. 15 Second Spot.

36. National Drinking Water Week 1995. (Edited Version) A week long segment focusing on National Drinking Water Week interviews with various department managers during KTSM Channel 9 "Live at Five Show." Anai J. Padilla, Hector Gonzalez, Doug Rittmann and Ernie Rebeck discuss their various areas of water expertise. *Run time – 13 minutes*

37. 1992 Sun Carnival Parade. Thanksgiving Day Parade (1992) Video features the new Willie Water Waster costume and others walking in the parade. The premier of the Willie Water Waster costume. *Run Time – 3 Hours*

38. Generation 2000 - 1992 and "Project Earth" Series. Generation 2000 Display Booth for 1992 with Raul Ramirez, Donna Britton, Anai Padilla, John Allen Weitz, and John Sutton (Videotaping). "Project Earth" Series with KTSM-TV Channel 9. Reported by Erica Castillo and Mark Pettinger. *Run Time – 9 minutes*

39. Irrigation Design School. 7/30/87. Texas A&M Agricultural Center. Group presentation by Steve McCarter and others to irrigation students using various visual aids. *Run Time – 5 Hours*

40. Water, Lifeblood of the Valley. 1986. KVIA-TV Channel 7. Reported by Susan Michaels. *Run Time – 25 minutes*

41. Irrigation Commercial with UTEP Coach Rabadoux *30 Second Spot*

42. What's Happening El Paso? Topic - Home Irrigation. 4/19/82. TelePass Productions. Features El Paso County Water Improvement District and Ed Fifer. *Run time - 29 minutes*

Miscellaneous Spots:

*"Water Conservation in the Home." *30 Second Spot.* Virginia Water Resources Research Center. Blacksburg, VA. **3 Copies**

*"Dunking Duck." American Water Works Association.

*"60 Gallons a Day." American Water Works Association.

*"Monkeys." American Water Works Association.

*"Water Follies (A Soak Opera)." Animated Production originally produced for the Denver Water Department by Stan Phillips and Associates presented in the interest of Water Conservation by Texas Department of Water Resources. This animated feature demonstrates amusing aspects of residential water conservation for children and adults. *Run Time - 6 minutes*

43. A Touch of Magic. Presented by Abracadabra Educational Entertainment. Discuss water magic tricks, games and displays available and includes toll-free number 1-800-489-0513. *Run Time – 10 minutes*

44. Association of Builders. Information concerning membership, with the Association of Builders. *Run Time – 5 minutes*

45. The Flush Buster. Discuss the water-saving features of The Flush Buster. *Run Time – 6 minutes*

46. Water Wizard. Discuss the water-saving features of the Water Wizard. *Run Time – 5 minutes*

47. El Paso Water Utilities. Reclaimed Water- Best Management Practices. Discuss soil types, salt sensitive plants, less irrigation. English *Run Time- 10 minutes* **2 COPIES**

49. Powerful Presentation Skills for Water Professionals. American Water Works Association. Stresses the importance of powerful oral communication skills. Discusses the four rules of making presentations and fifty tips for making powerful presentations (booklet included). *Run Time - 27 minutes*

50. National Drinking Water Week 1995. (Unedited Version). A week long segment focusing on National Drinking Water Week interviews with various department managers during KTSM Channel 9 "Live at Five Show." Anai J. Padilla, Hector Gonzalez, Doug Rittmann and Ernie Rebeck discuss their various areas of water expertise. *Run Time – 3 hours*

- 51. Water Waste and Water Usage.** (Unedited Version). Filmed during July 1995. Hours and hours of excellent examples of water waste throughout the city. Conservation Enforcement Inspector Javier Lopez videotapes and explains the various water waste situations on hand. *Run Time – 2 hours*
- 52. The Surface Water Video.** English *Run Time - 9:30 minutes* **3 COPIES** / Spanish *Run time – 10 minutes*
- 53. El Paso-Las Cruces Regional Sustainable Water Project.** Discusses planning a new system for providing water. What would be the most beneficial system? What is the most cost effective system, and what type of adverse effects could this have on our society. Applies to Las Cruces, El Paso and Juarez. *Run Time - 6 minutes*
